Standard Fixed Focus Lens 35mm F1.7 Instruction

Thanks for choosing our product.

Please read the instruction carefully for fully understanding before use the lens in the right way. Please keep it for future checking.

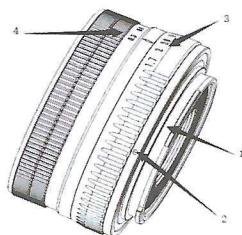

Safety Precautions

- ! Don't watch the bright light especially the sunshine through the lens, or the eyesight will get hurt.
- ! Never place the lens under the sunshine without cover, no matter if it is assembled on the camera or not, which could trigger fire disaster.

Maintenance and Storage Matters

- 1.To avoid violence bump or place it in extremely cold or humid conditions.
- 2.Please store in a cool, dry and well-ventilated place.
- 3.Please use soft cloth or paper to clean the glass instead of benzene or any other organic solvent.
- 4.The lens is not waterproof, Please use it carefully when raining or near the water. If the inner parts, glasses or electronic parts get wet, they may not be repaired.
- 5.Temperature mutations may cause condensation and water droplets on the glass surface. Please keep the lens in a sealed plastic bag until the lens' temperature is close to the outside temperature.
