

Car Wireless Charger V30S

Instruction Manual

1.Car Wireless Charger Manual

Product Name: Car stand wireless charger

(Intelligent sensing)

Power: 15W, 10W, 7.5W, 5W

Effective transmission distance: 1-8mm

Product size:125mm×75.5mm×48.5mm

Charging interface: Type C

Packing list:

Car bracket x 1, Manual X1,

Data line×1, Car outlet base(clip)×1

Magnetic head×1 (Iphone, type-C, Android)

2.Functional components

Frontal view

Backside view

3. Specifications

1. Model: V30S
2. Color: Red/Pink/Black
3. Weight: product net weight about 128g
4. Material: PC+ ABS Vacuum Plating
5. Input voltage of magnetic head: DC 5V/2A
6. Input voltage/current: 5V/2A, 9V/1.67A, 12V/1.5A
7. Output power:15W,10W, 7.5W, 5W automatic identification
8. Charging frequency : 110K-205K Hz
9. Support Specifications: Qualified with QI Wireless Protocol Charging
10. Some support wireless fast charging equipment
IPHONE:Iphone8/8P/X/XS/XSmax/11/11Pro/11Promax
HUAWEI:Mate RS/Mate20 Pro/Mate20 RS/P30 Pro/P40 Pro
SAMSUNG:S7/S7 edge/S8/S8+/S9+/S10
XIAOMI:MIX2S/MIX3/NI9/10
11. Devices that do not support wireless charging can only be recharged by cooperating with the corresponding magnetic plug

4. Instructions For Use

1. Connect the vehicle's wireless charging device to the appropriate data cable when using it.
2. Connect the USB port of the data cable to the charging interface on the car (eg, cigarette lighter switching charger and USB charging port on the car).
3. The device clip clips the air outlet and can also be placed elsewhere.
4. After the equipment is powered on with DC5V-12V power supply and DC5V-12V power supply, the equipment will automatically clamp the telescopic arm once, and the blue indicator light will turn on and turn red, and the indicator light will be on for a long time. At this time, the device enters the normal standby state. When the front of the object is 5cm-20cm close to the device, the device will automatically open its arms. After putting the mobile phone into the device, the device will automatically clamp the mobile phone. At this time, the wireless charging will automatically charge the mobile phone. When charging, the blue indicator light (breathing light) of the device will be on. (mobile phone with wireless charging function is required). When you need to take out the mobile phone, you need to touch the concave point sensing area on the top of the back shell of the device. When the hand touches the concave point sensing area, the device will automatically open its arms and take away the mobile phone.
5. This device has over-voltage protection, over-temperature protection, magnetic field protection, short-circuit protection if the device is abnormal, it will automatically stop working.

5. Precautions

1. Do not over-squeeze or hit the device
2. Do not use the wireless charger under severe high temperature, humidity or corrosive environment to avoid damaging the device's circuit

Thank You For Using This Product
